

# GRE Tunnel

(Generic Routing Encapsulation)

## GRE Tunnel Configuration

### **Head Office:**

```
(config-if)#router rip
network 10.10.10.0
(config-if)#router rip
network 100.100.100.0
```

### **ISP-1 Router:**

```
(config-if)#router rip
network 100.100.100.0
(config-if)#router rip
network 200.200.200.0
```

### **Internet Cloud:**

```
(config-if)#router rip
network 200.200.200.0
(config-if)#router rip
network 123.40.40.0
```

### **ISP-2 Router:**

```
(config-if)#router rip
network 123.40.40.0
(config-if)#router rip
network 124.50.50.0
```

### **Branch Office:**

```
(config-if)#router rip
network 124.50.50.0
(config-if)#router rip
network 11.11.11.0
```

### **Head Office:**

```
#configure terminal
(config)#interface tunnel 100
ip address 172.16.0.1 255.255.255.252
(config-if)#tunnel source serial 0/0/0
(config-if)#tunnel destination 124.50.50.22
```

### **Branch Office:**

```
#configure terminal
(config)#interface tunnel 200
ip address 172.16.0.2 255.255.255.252
(config-if)#tunnel source serial 0/0/1
(config-if)#tunnel destination 100.100.100.1
```

### **Static Route Between GRE Tunnel:**

### **Head Office:**

```
(config)#ip route 11.11.11.0 255.255.255.0 172.16.0.2
```

### **Branch Office:**

```
(config)#ip route 10.10.10.0 255.255.255.0 172.16.0.1
```
